eReceipts

"eReceipts are an innovative, standout product that provides an essential transactional piece delivered in a personalized, tech-driven way. Being able to provide eReceipts to our credit union partners is the culmination of our programming expertise, understanding the credit union industry, and seeking to enhance the member experience by providing the latest products and services."

Pat Mileski
Team Lead - Strategic Partnerships & Solution Support

How can you stand out to your members? By offering just the right services when (or before) they expect them! eReceipts are something that members have become accustomed to in the retail environment – why shouldn't they expect this from your credit union?

Whether they opt to always receive an eReceipt, or an eReceipt along with a printed receipt, or to be asked by the teller each time, that preference is retained in the core to make it easy for your staff to know how to best serve each member.

Key Benefits

- Brings a modern receipt experience to your lobby
- Provides the ability to collect and instantly test member email addresses
- Offers new marketing opportunities at the bottom of each receipt
- Lowers paper and ink costs, and receipt printer maintenance fees
- Reduces postage costs by replacing traditional mail with email
- Keeps eReceipt functionality fully controlled within the core
